

We would like to reassure our customers that we are committed to protecting our Staff, Customers & hopefully the wider community and will be constantly reviewing our service to you in relation to the **Covid-19 Outbreak.**

We are open as normal at the moment but have taken some extra precautionary steps:

- * Extra surface sanitising including Menus.**
- * Even more frequent hand washing/sanitising by Staff.**
- * Salt & Pepper etc. ONLY available on request, rather than being left on the tables between customers.**

We are a small 2 Man business who along with our great Staff, will keep trying to stay informed and take professional advice from The Government and our Local Authority when available.

*We are currently exploring the possibility of providing a **'Take Away Service'** for our Customers.*
